

Trace Carbon Report: Gibson Sheat

Gibson Sheat has started their journey to Net Zero in partnership with Trace

Trace measures the emissions of business operations to enable a business to manage and reduce emissions with operational change. Trace offers a service to offset emissions enabling the company to reach Carbon neutrality. The activities related to Gibson Sheat are listed in this report. To understand more about Trace's services please visit our [website](#).

At Trace we believe in radical transparency and so create a public impact page for every member of our community. You can view Gibson Sheat public disclosure [here](#).

If you have any questions or feedback about this report please contact hello@our-trace.com

Thank you on behalf of the whole team for your commitment to take climate action in partnership with Trace.

Sincerely

Joanna Auburn

Co Founder and CPO

Measurement & offset summary for Gibson Sheat

Carbon emissions were measured based on data supplied by Gibson Sheat and the assessment and assumptions were reviewed and accepted by the customer. Trace's proprietary carbon assessment methodology is guided by best-practice approaches. Emissions factors and assumptions are from public and paid sources and are periodically assessed and peer-reviewed. More information about Trace's methodology can be found [here](#).

This report includes both your Gross and Net Emissions. The GHG protocol recommends reporting your Gross Emissions. This does not include any offsetting activities by your suppliers. Net Emissions is your carbon footprint after accounting for any offsets in your supply chain.

ID	Date range measure	Total gross emissions (tCO2)	Total net emissions (tCO2)	Emissions intensity (Net) - (tCO2/FTE)	Total % offset (Net)
2.0	01/2025 - 12/2025	367.2	367.2	4.8	0%
1.0	01/2024 - 12/2024	508.9	508.9	6.4	0%

For detailed reports refer to Measurement and Offset Report Details

Measurement Report Detail for Gibson Sheat

Measurement Profile ID: 2.0 [01/2025 - 12/2025]

Reporting by category

Category	Gross emissions measured (tCO2)	% of footprint (Gross)	Net emissions measured (tCO2)	% of footprint (Net)
Employee commuting	47.2	13%	47.2	13%
Upstream transport & distribution	0.1	<1%	0.1	<1%
Fuel & Energy Related	0.8	<1%	0.8	<1%

Category	Gross emissions measured (tCO2)	% of footprint (Gross)	Net emissions measured (tCO2)	% of footprint (Net)
Activities				
Electricity	8.1	2%	8.1	2%
Business travel	23.7	6%	23.7	6%
Waste generated	28.7	8%	28.7	8%
Purchased goods & services	258.7	70%	258.7	70%

Reporting by scope

Scope	Gross emissions measured (tCO2)	% of footprint (Gross)	Net emissions measured (tCO2)	% of footprint (Net)
Scope 1	0	0%	0	0%
Scope 2	8.1	2%	8.1	2%
Scope 3	359.1	98%	359.1	98%

Reporting by sub category

Category	Sub category	Gross emissions measured (tCO2)	% of footprint (Gross)	Net emissions measured (tCO2)	% of footprint (Net)
Employee commuting	Private transport	36.9	10%	36.9	10%
	Public transport	8.7	2%	8.7	2%
	Working from home electricity -	1.6	<1%	1.6	<1%

Category	Sub category	Gross emissions measured (tCO2)	% of footprint (Gross)	Net emissions measured (tCO2)	% of footprint (Net)
	estimate				
	Walk or cycle	0	0%	0	0%
Upstream transport & distribution	Ground transport	0.1	<1%	0.1	<1%
Fuel & Energy Related Activities	Electricity T&D losses	0.8	<1%	0.8	<1%
Electricity	Office usage	8.1	2%	8.1	2%
Business travel	Private transport	9.2	3%	9.2	3%
	Air travel / flights	7.8	2%	7.8	2%
	Public transport	4.5	1%	4.5	1%
	Accommodation	2.2	<1%	2.2	<1%
Waste generated	Mixed waste	26.6	7%	26.6	7%
	Waste management	2.1	<1%	2.1	<1%

Appendix

How Trace works

Measure

Accurately measure
your emissions in a
matter of days

Engage

Educate & engage
your employees on
the journey

Reduce

Set targets and
implement actions
to reduce emissions

Share

Easily & transparently
share your impact

For more information about Trace's business product see our website [here](#).

Trace CO2 emission sources and scopes

Trace offers a range of different certificates depending on the type of organisation and scope of emissions included in the measurement & offset process. For more information about Trace's terms of service see [here](#).
